Mumbai, Maharashtra, India • shaikhafri231@gmail.com • 9136351418

## SUMMARY

---

Software Engineer with 2+ years of experience in working with SQL, Visualization. known for strong problem-solving skill and consistently delivering projects on time and within budget. A collaborative team player focused on continuous learning and innovation.

## EXPERIENCE

---

### Software Engineer

Sep 2022- Present

#### CAPGEMINI

**Technologies used:** MS SQL SERVER, POWER BI, TALEND, MS EXCEL, PYTHON

- Designed and developed interactive dashboards using Power BI for data visualization and insights.
- Utilized SQL Server for data storage and wrote complex queries to retrieve and manipulate data.
- Managed dashboards refresh schedules and resolved database-related issues during refresh operations.
- Collaborated with stakeholders to gather requirements for updates, modifications, or changes in dashboards and databases.
- Employed Talend as an ETL tool to extract data from source systems and load it into the data warehouse, along with regular monitoring of Talend jobs.
- Troubleshoot and resolved errors encountered during ETL job executions

## EDUCATION

---

### B.E in Electronics and Telecommunication

73.64%

2018-2022

Anuman-I-Islam's Kalsekar Technical Campus  
(Mumbai University)

## SKILLS

---

**Languages :** Python

**Database :** MS SQL Server, SQL

**Tools :** Talend, Power BI

**Others :** JIRA, Pandas.

## PERSONAL PROJECTS

---

### PIZZA SALES REPORT

March 2025

- **Description:** I developed an interactive Power BI dashboard using SQL data extraction to analyze key pizza sales metrics. The project tracks total revenue, orders, pizzas sold, and calculates average order value and pizzas per order. It also visualizes daily and monthly order trends, sales percentages by pizza category/size, and highlights the top 5 best and bottom 5 worst sellers..
- **Technologies Used:** MS SQL Server, Power BI

### REDBUS TICKET BOOKING ANALYSIS

Nov 2022

- **Description:** In this project my objective is to create report presenting the fact and figures derived from the analysis of RedBus ticket booking across multiple cities, with the intention of facilities business growth.
- **Technology Used :** MS SQL Server, Power BI
