Introduction

Capgemini supports you in your personal growth and aims for you to #GETTHEFUTUREYOUWANT.

You are engaging in continuous development activities and conversations with your People Manager and peers, aimed at providing you guidance and opportunities for you to progress.

This process is designed to capture all elements (priorities, feedback, development activities, aspirations and challenges) that you have been exchanging with your People Manager, in one simple form. At the end of this process, you and your People Manager can identify whether there should be any changes to priorities.

If you have any questions or concerns relating to this process, you can contact your People Manager, your HR Business Partner or easily obtain more information on the People Experience intranet.

Priorities

This section is for evaluating the individual priorities that you have agreed with your People Manager at the beginning of the year and that you kept up-to-date through regular Check-Ins throughout the year.
These priorities include achievements and contributions from your assignments. You are strongly encouraged to evidence progress and achievements against your development priorities. The balance between performing in business and constantly progressing is at the heart of what defines success at Capgemini.

Assignment

People Manager Comments Saif is doing as per expectations

Final Reflections on the Year - Skills Maturity

Given your review of skills maturity, please answer the following two questions:

Click here for Assessment scale

What level of overall skills maturity is being demonstrated?	Expert
What level of leadership skills maturity is being demonstrated?	Expert

We recommend that the Capgemini Leadership Vision should be considered as guidance to all People Managers when they assess the Leadership Skills Maturity of their Team Members. While some Team Members might be in roles where they are expected to lead others, some other Team Members might only be expected to lead themselves. Please refer to the Capgemini Leadership Vision as a guide for assessing Leadership Skills Maturity of your Team Members.

Overall Comments on Skills Maturity

Final Reflections - In Year Contribution

Given your review of contribution this year, please answer the following question:

What is the Overall level of contribution this year?

Succeeding

Overall Comments on In Year Contribution

Employee Comments

I have joined Capgemini in 2023,post my training I was tagged to Baker Hughes project where I work with them t
billable resource.

Since July 2024, I have been an integral part of the Delivery Assurance Reporting and Transformations (DART) te
within the Global CIS division. My role encompasses both technical and financial responsibilities, allowing me to
facets of our operations.

Technical Responsibilities:

In my technical capacity, I manage and maintain Power BI dashboards, ensuring they are refreshed daily and acc
latest data. This involves loading data into databases, troubleshooting any issues that arise during the refresh pr
implementing updates or enhancements as needed. My proactive approach has been instrumental in identifying
thereby ensuring the reliability and efficiency of our reporting tools.

Additionally, I leverage Microsoft Power Platform tools—such as Power Apps and Power Automate—to develop
streamline workflows and automate repetitive tasks. My work with SharePoint includes managing document libra
them with other Microsoft services to facilitate seamless collaboration across teams.

Financial Responsibilities:

On the financial front, I collaborate closely with Engagement Managers and PMOs to set up engagements within
system. This involves interpreting contract documents to determine the most effective setup configurations, ensu
between cost, revenue, and invoicing data. I assist stakeholders in understanding any discrepancies or misalignn
providing insights and recommendations to optimize their current setups.

Furthermore, I manage access permissions within the E-Monitoring system, granting appropriate levels of access
engagement and business unit levels. This ensures that stakeholders have the necessary visibility into financial c
roles.

Moving forward I have also started working with Light Way team - Part of the DART project.
